2027 Thornton Water Rates

Like many cities across the country, Thornton continues to see increases in the cost of maintaining and improving our water system. To continue providing our community with clean, reliable drinking water, 2027 utility rate changes will go into effect **January 1, 2027.**

How will the changes affect my monthly water bill?

The table below shows the average water charges for a typical Thornton single-family residential water user on a 7,000-square-foot lot. Calculations are based on typical monthly water use of 3,830 gallons in winter and 11,240 gallons in summer. Individual bills are determined based on actual monthly usage. Your utility bill may also reflect other services and charges such as sewer, stormwater, trash and recycling.

Season	Typical Winter Bill		Typical Summer Bill	
Timing	Today	Starting 1/1/27	Today	Starting 1/1/27
Inside City Residential Customer	$40.69	$42.16	$98.19	$101.73

Factors That Influence Water Rates

- **Inflation**
- **PFAS mitigation**
- **Water system maintenance**
- **Infrastructure investments**
