

JOB ASSIGNMENT #5

Get Creative!

Draw a Picture, Take a Photo, Make a Movie, or Give a Presentation - All About Water!

For this job assignment, tap into your artistic side. Express what you have learned about water by drawing, photographing or even making a short video about water. There are lots of apps, like iMovie, powtoon.com or getkahoot.com that will help you make your own presentation or quiz about water. Share your creative water works of art with your school or send them in to the Water Festival Committee. Your class could receive a prize for your efforts!
