

DE*Mist*IFY YOUR WATER USE

WHERE DOES ALL YOUR WATER GO?

Maybe you sing happy birthday twice while brushing your teeth, but you leave the water on. Maybe your showerhead has a tiny drip you haven't noticed. Or maybe your green grass doesn't need to be watered every day to stay green. The point is, there are so many ways we unknowingly "waste" water, but we can easily fix them without sacrificing the things we love.

LET'S FIND THE CULPRITS.

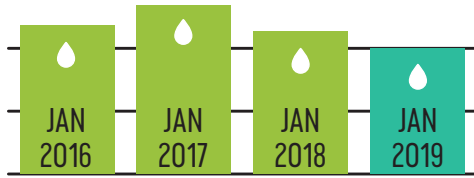

We want to help you save water and money on your water bill, so we've implemented a program to help our customers do just that.

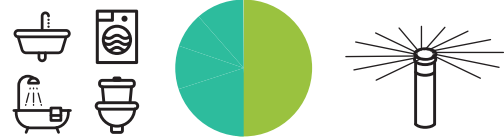

INTRODUCING WaterSmart

Thornton.WaterSmart.com keeps you informed about your water. Once you create a profile you'll be able to set alerts, track and compare your daily consumption, find leaks, get personalized tips on ways to save, and lots more.

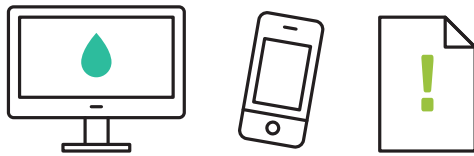

WITH WATERSMART YOU CAN:

1 See all of your water use history and compare [gallons per day / use over time]

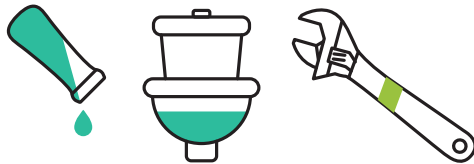

2 Learn where you use the most water in your home

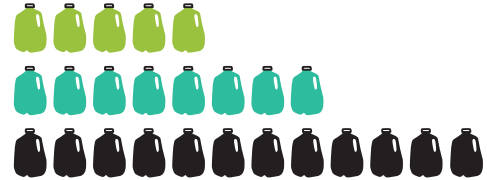

3 Sign up for unusual use notifications that alert you to possible leaks

4 Receive customized recommendations to help you save water

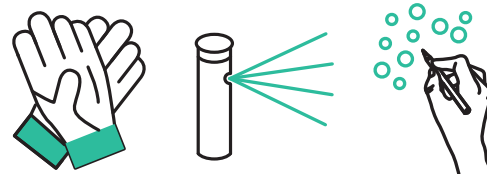

5 Get step-by-step instructions on how to check for leaks

6 Get your Water Score: Are you Efficient, Average or Using More than Average?

7 Sign up for rebates, free services and other city programs to help you save

8 Add details to your profile for a more accurate and personalized report

**EVERY DROP COUNTS (AND EVERY DROP IS COUNTED!)
FIND OUT WHERE YOU'RE USING THE MOST WATER—AND HOW MUCH IT'S COSTING YOU.**

CREATE YOUR WATERSMART PROFILE TODAY AT [THORNTON.WATERSMART.COM](https://thornton.watersmart.com).
