

WE'RE DOING OUR PART

The City of Thornton is currently under Stage 1 Drought Restrictions. Thorncreek Golf Course is primarily watered with non-potable water; however, we are making every effort possible to conserve water.

Some lower-use turf areas, including the clubhouse grounds and driving range landing area, may appear less green while we endure this drought. Short-cut playing areas will remain the priority to ensure good playability.

Thank you for your patience, and we appreciate you choosing Thorncreek Golf Course.

For drought status updates, visit ThorntonWater.com/drought.
